Year	Degree/Exam	Institute	CGPA/Marks
2024–Present	B.E. CSE	RV Institute of Technology and Management, Bengaluru	8.975 / 10
2022–2024	PUC (XII)	Expert Pre-University College, Valachil, Mangaluru	92%
2022	CBSE (X)	Jindal Vidya Mandir, Vidyanagar, Ballari	90%

SKILLS

Programming Languages: JavaScript, C++, Python, Java, C.

Web Technologies: Frontend: [React.js, HTML, CSS, Tailwind CSS], Backend: [Node.js, Express.js, RESTful APIs], Database: [MongoDB (Mongoose), Redis].

Auth & Security: JWT (Access + Refresh Tokens), Google OAuth 2.0 (Passport.js), Firebase Auth, RBAC, Helmet, Rate Limiting.

Tools & Platforms: Git, GitHub, Postman, VS Code, Jest, Cloudinary, Vercel, Render.

Core CS: Data Structures & Algorithms, Object-Oriented Programming, Operating Systems, Computer Networks, Database management systems.

EXPERIENCE

Software Engineering Intern — TheAiSignal

Sep 2026 – Oct 2026

- Developed production modules across **AiOrbit** and **FrontierAtlas**, including a Business Module, Security Module, and automated research-paper ingestion pipeline.
- Built backend workflows, APIs, database integrations, validation, and application logic within existing collaborative codebases.
- Currently developing **Intern Atlas**, an internship/job discovery platform focused on fast search, filtering, and simplified opportunity discovery.

Tech: Next.js, React, TypeScript, Node.js, Prisma ORM, SQL

PROJECTS

FITOS — Fitness Coaching SaaS Platform [React, Node.js, Express.js, MongoDB, Cloudinary, WhatsApp Cloud API]

[GitHub Link](#) / [Live](#)

- Architected a **full-stack fitness coaching SaaS** with **3-role RBAC (Admin, Trainer, Client)**, **30+ pages**, **13 Mongoose schemas**, and **15 service modules** using a layered **routes → controllers → services** architecture; implemented trainer-client workflows for plans, check-ins, progress tracking, and onboarding.
- Engineered **JWT access/refresh authentication** with **HttpOnly cookies** and **Google OAuth 2.0** via **Passport.js**; enforced protected resources and centralized environment/security configuration.
- Optimized **media handling** with **signed direct-to-Cloudinary browser uploads**, integrated the **Meta WhatsApp Cloud API** for client activation, wrote **15 Jest validator/service/contract test suites**, and deployed on **Render + Vercel**.

Rate My Bond — Bond Risk Analysis Platform [React, Node.js, Express.js, MongoDB, Firebase Auth]

[GitHub Link](#) / [Live](#)

- Engineered a **full-stack bond risk-analysis platform** for Indian retail investors with a custom credit-scoring engine calculating **Probability of Default (PD)**, **Loss Given Default (LGD)**, **Expected Loss**, and **risk-adjusted return**.
- Designed a **fully config-driven issuer-strength model across 7 financial metrics**—including ICR, leverage, cashflow quality, refinancing risk, sector, group support, and event risk—for systematic bond evaluation.
- Built a **production REST API** with validation, rate limiting, CORS, and centralized error handling; implemented Firebase-authenticated protected routes and **MongoDB issuer/analysis data pipelines** using CSV ingestion.

Notes API — Secure REST Backend [Node.js, Express.js, MongoDB, Redis, JWT]

[GitHub Link](#)

- Engineered a **secure REST backend** with JWT authentication, **refresh-token rotation**, **bcrypt password hashing**, and **one-time password-reset tokens** via Nodemailer; enforced RBAC and resource-ownership authorization.
- Implemented **Redis cache-aside caching** with **TTL** and **write-time invalidation**, alongside **cursor-based pagination** and search for note retrieval.
- Hardened the **API** with **Helmet**, **rate limiting**, **centralized error handling**, and **structured logging**; added Cloudinary-backed avatar uploads through Multer.

ACHIEVEMENTS & TECHNICAL PRACTICE

- Solved **150+ problems** on LeetCode. [\[LeetCode\]](#)

EXTRA CURRICULAR ACTIVITIES

Model United Nations (MUN) Participant — 2024

- Demonstrated public speaking, negotiation, and teamwork skills.
- Collaborated with participants to discuss global issues and present solutions.
